

Program Model Fit Worksheet

This worksheet can be used by Teen Pregnancy Prevention (TPP) grantee and implementing organizations to think through the fit of their program model and identify challenges that might require adaptation to improve program fit.

Does the program fit with participants' characteristics?

Participant Characteristics	Yes	No
Age		
Language		
Literacy level		
Sex		
Sexual orientation		
Other		

What challenges is our program facing that might require adaptation to better align the program with participants' characteristics?

Does the program fit with the grantee organization?

Organization Characteristics	Yes	No	N/A
Board support			
Leadership support			
Method of implementation			
Mission and values			
Staff support			
Setting			
Time available for implementation (dosage)			

What challenges is our program facing that might require adaptation to better align the program with the grantee organization's characteristics?

Does the program fit with the implementing organization?

Organization Characteristics	Yes	No	N/A
Board support			
Leadership support			
Method of implementation			
Mission and values			
Staff support			
Setting			
Time available for implementation (dosage)			

What challenges is our program facing that might require adaptation to better align the program with the grantee organization's characteristics?

Does the program's expected outcomes fit the community need?

Outcomes	Yes	No	N/A
Contraceptive use and/or consistency			
Frequency of sexual activity			
Number of sexual partners			
Pregnancy or birth			
Recent sexual activity			
Sexual initiation and abstinence			
Sexually transmitted infections (including HIV)			

What challenges is our program facing that might require adaptation to better align the expected program outcomes with the community need?

What contextual limitations is our program facing that were not explored above?
