

# PREVENTING UNCONSCIOUS BIAS: TURNING LEARNING INTO ACTION

One of the most effective ways to integrate and sustain new behaviors or practices is to create a detailed action plan. How do you plan to turn this learning experience into action?

**My goal is to (select all that apply):**

- prevent unconscious bias from affecting the care I provide my clients
- provide more culturally competent care to my patients
- work more effectively with my colleagues
- feel more comfortable when interacting with people from a different culture than my own
- treat everyone in a way that is consistent with my personal values
