

OFFICE OF THE ASSISTANT SECRETARY FOR HEALTH

Fidelity and Adaptation for TPP20 Tier 1

Jaclyn Ruiz & Richmond Pajela
September 2, 2020

Agenda

- Fidelity
 - Understanding what fidelity and why it's important
 - Fidelity monitoring - TPP20 Tier 1 Expectations
 - Understanding what fidelity monitoring is and why it's important
- Adaptations
 - Definition of adaptations and different types
 - Differences between **Minor** and **Major** adaptations
- COVID-19 Implications
- Request and approval process for Adaptations

Overview of Fidelity

What fidelity is

- The degree to which a program is implemented **with adherence** to its **core components**.
 - **Core components:** the key ingredients related to achieving the outcomes associated with the program model.
 - ✓ **Program Content** - what is being communicated
 - ✓ **Program Delivery** – how it is communicated

What fidelity is NOT

- Reading word for word from the script
- Being unresponsive to the population served
- Keeping yourself from ever making adaptations

Why is fidelity important?

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

Fidelity Monitoring Overview

- **What is fidelity monitoring?**
 - System of measuring and analyzing the degree to which a program is implemented as intended
- **Why is fidelity monitoring important?**
 - Allows learning about how a program is being implemented, to strengthen what works, and to improve what does not

TPP20 Tier 1 Grant Expectation

Include a fidelity monitoring component in your **Monitoring, Evaluation, and Improvement Plan** that, at a minimum:

- Collects data on fidelity and quality from program facilitators;
- Collects data on fidelity and quality from observations of at least 10% of all program sessions and 100% of all program facilitators;
- Ensures data is reviewed and analyzed on a regular basis;
- Uses data to provide feedback to facilitators; and
- Uses data to make continuous quality improvements to the program and its implementation.

Fidelity Monitoring Component?

- Fidelity Monitoring Plan - establishes process and procedures for monitoring fidelity
- Fidelity monitoring plan should include:
 - Train Staff and Observers on Maintaining and Monitoring Fidelity
 - Collect Fidelity Monitoring Data
 - Review and Analyze Data
 - Provide Feedback on a Regular Basis
 - Use Data for Continuous Quality Improvement

Train staff and observers

- Program
 - Logic model
 - Theory of change
 - Core components
- Fidelity
 - Why
 - How
 - Expectations

Collect Fidelity Monitoring Data

- Attendance data
- A facilitator self-assessment
- Information on planned and unplanned adaptations
- Observation data for 10% of all sessions implemented and 100% of all program facilitators

Review and Analyze Data

- Who will be responsible?
- How often will data be entered and reviewed?
- How will results be shared?

Provide Feedback on a Regular Basis

- Who?
- How?
- When?

Provide
Feedback on
a Regular
Basis

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

Use Data for Continuous Quality Improvement

- Learn about implementation
- Make data-driven decisions about:
 - Adaptations
 - Fit of program
 - How to improve

Use Data for
Continuous
Quality
Improvement

Fidelity Monitoring Data

- Facilitator Assessment Logs
- Attendance data
 - Reach
 - Demographics
 - Dosage
- Observation data from program observers for 10% of all sessions implemented and 100% of all program facilitators
 - **Fidelity** - measures how well the program as implemented as intended
 - ✓ Number of planned sessions/activities vs. number of completed sessions/activities
 - **Quality** - assesses how well the program is implemented

Who should be an observer

- An observer should be someone who is familiar with the program model and not affiliated with its daily implementation
 - Local evaluator
 - Internal evaluator
 - Data analyst
 - A staff person from another department in your organization
 - Project Director, Program manager or coordinator

Planning the Observations

- Observe 10% of all programming
- Observe 100% of facilitators
- Try to balance your observations as much as possible across:
 - Program sites
 - Facilitators/Teachers
 - Sessions of the Program Model

Adaptations

- Adaptations are changes to the program content, program delivery, or core components of an effective program.
- Some adaptations are necessary to make the program more culturally relevant, current, and/or more engaging.
- Adaptations can either be **MINOR** or **MAJOR**.

MINOR vs. MAJOR

- **Minor adaptations** – do not significantly affect the program core components
- **Major adaptations** – those that significantly change the core components

Minor Adaptations

Do not significantly change program content

Do not significantly change program delivery

Do not change core components of the program

Do not compromise fidelity

Major Adaptations

Significantly changes program content

Significantly changes program delivery

Changes core components of the program

May compromise fidelity

Examples of Minor Adaptations

- Adding icebreakers, team-builders, energizers, or reflection activities
- Adding a lesson on reproductive anatomy
- Providing updated or local statistics
- Providing information about local services (e.g. teen-friendly health centers)
- Revising materials to ensure inclusivity and cultural relevancy (e.g. changing names in role plays)
- Changing minor wording (e.g. “group rules” to “group agreement”)

Examples of Major Adaptations

- Omitting an entire lesson
- Omitting a key activity, such as a condom demonstration or an activity designed to practice a skill
- Decreasing the number or length of sessions
- Increasing student to facilitator ratio
- Shortening or eliminating program videos
- Changing the order of lessons
- Implementing a program designed for 15-16 year olds with 10-12 year olds
- Implementing a face-to-face program virtually

Adaptations

Minor Adaptations

- Allowable
- Must be discussed with your project officer first
- Reported on MAX
- Discussed in semi-annual progress reports

Major Adaptations

- Should be avoided if possible
- Require prior approval
- Must go through adaptation request process prior to implementation

Planned vs Unplanned Adaptations

- Planned adaptations
 - Proactively identify any needed adaptations prior to beginning implementation
 - Recommend piloting program without adaptations first to see if adaptation are needed
- Unplanned adaptations
 - Occur during program implementation and are not planned in advance
 - Have system in place to identify unplanned adaptations that occur

Increasing Fidelity and Managing Adaptations

- Ensure program fit
- Ensure effective implementation through fidelity monitoring and use of data for CQI
- Choose the right partners
- Develop an internal system
 - For handling adaptation requests from front-line staff
 - Keeping a record of unplanned adaptations
- Use the materials review period to identify and plan for possible adaptations
- Use the resources from OPA and consult with developer on best practices for adaptations
- Create “report cards” for key partners and stakeholders.
- Train and provide ongoing refreshers to staff and partners on the importance of fidelity

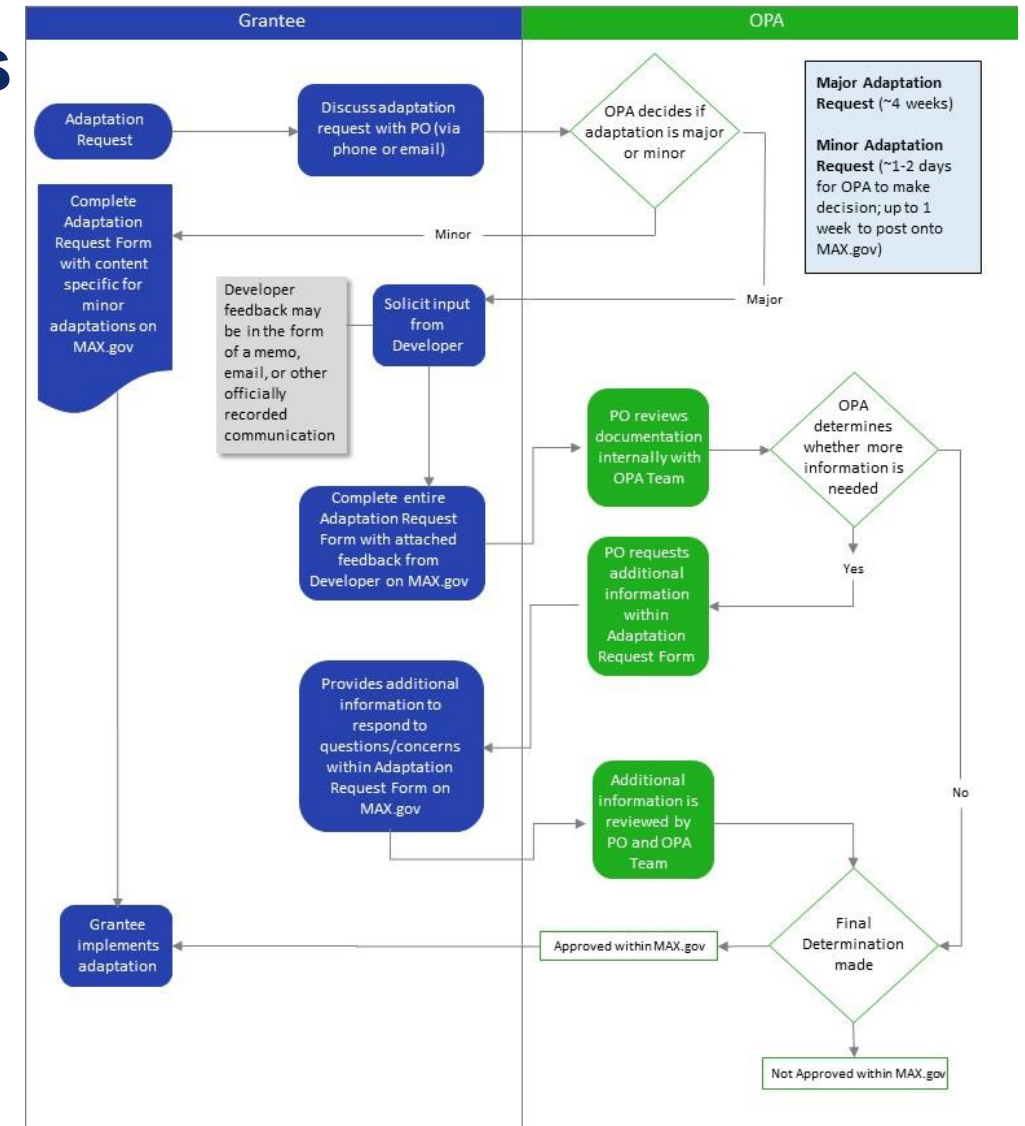

COVID-19 Implications

- Fidelity
 - Ensuring you fully understand the “core components” of a program
- Adaptations
 - All virtual delivery should be document as minor only if it’s a result of COVID-19
 - Further adaptations to modify the program to fit virtual delivery may result in needing to submit a major adaptation request

Requesting Approval for Adaptations

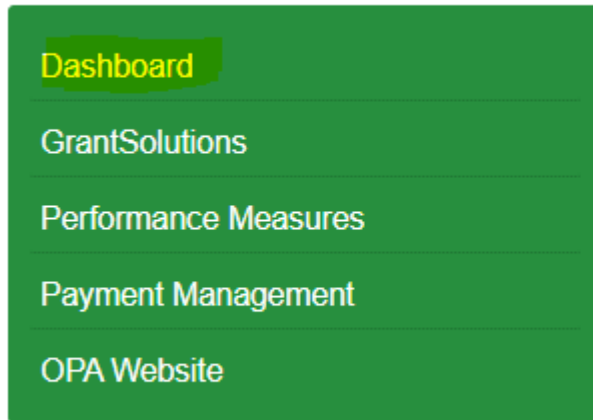

1. Discuss adaptation with Project Officer
- 2a. If **minor**, complete adaptation request form on MAX.gov and implement, monitor, and track
- 2b. If **major**, solicit input from developer and complete adaptation request form on MAX.gov
3. OPA **may** request for additional information
- 3a. Provide additional information within adaptation request form on MAX.gov
4. OPA will make final determination on adaptation approval. Grantee may implement if approved.
5. Monitor and track adaptation

MAX Adaptation Request Form Instructions (Minor)

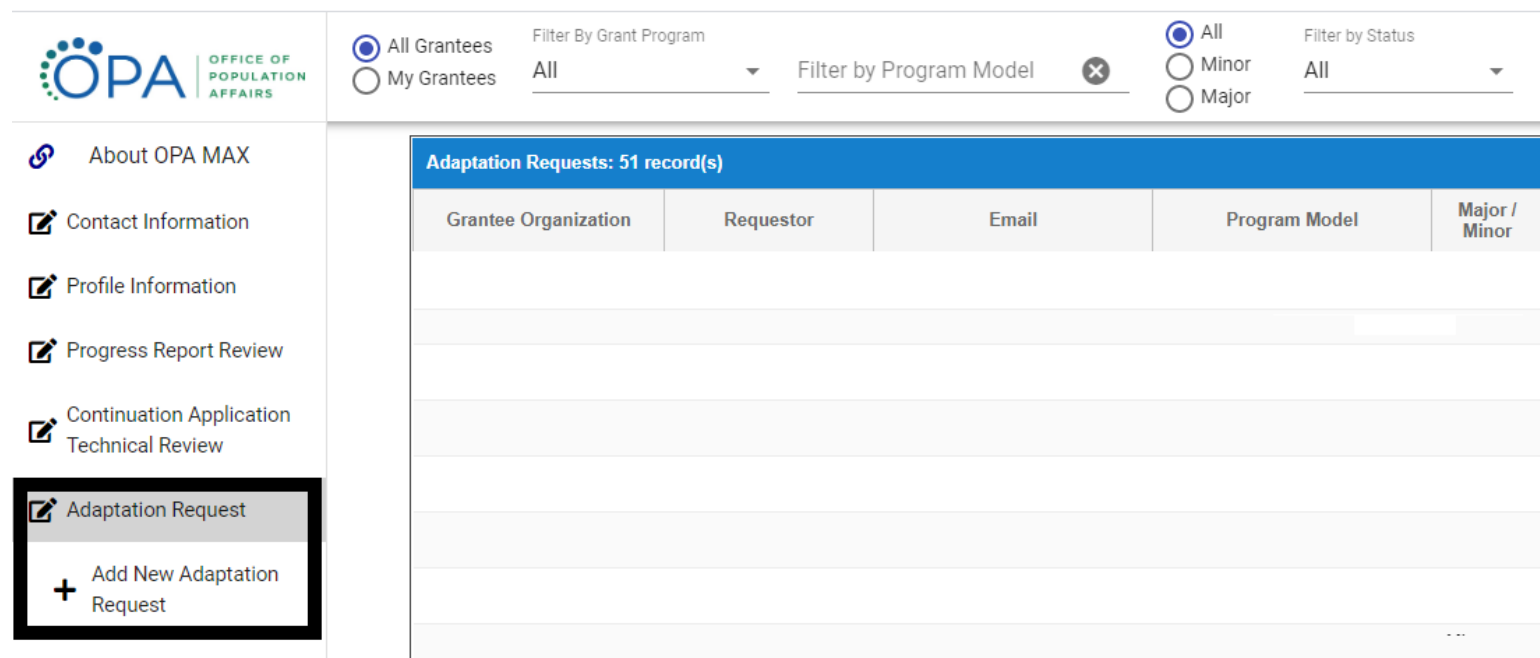

- The Adaptation Request form is online on MAX.gov and can be found under “Dashboard” on the “External Links” menu on the left side

External Links

MAX Adaptation Request Form Instructions (Minor) cont.

- To document a minor adaptation click “+ Add New Adaptation Request” on the left side of the screen

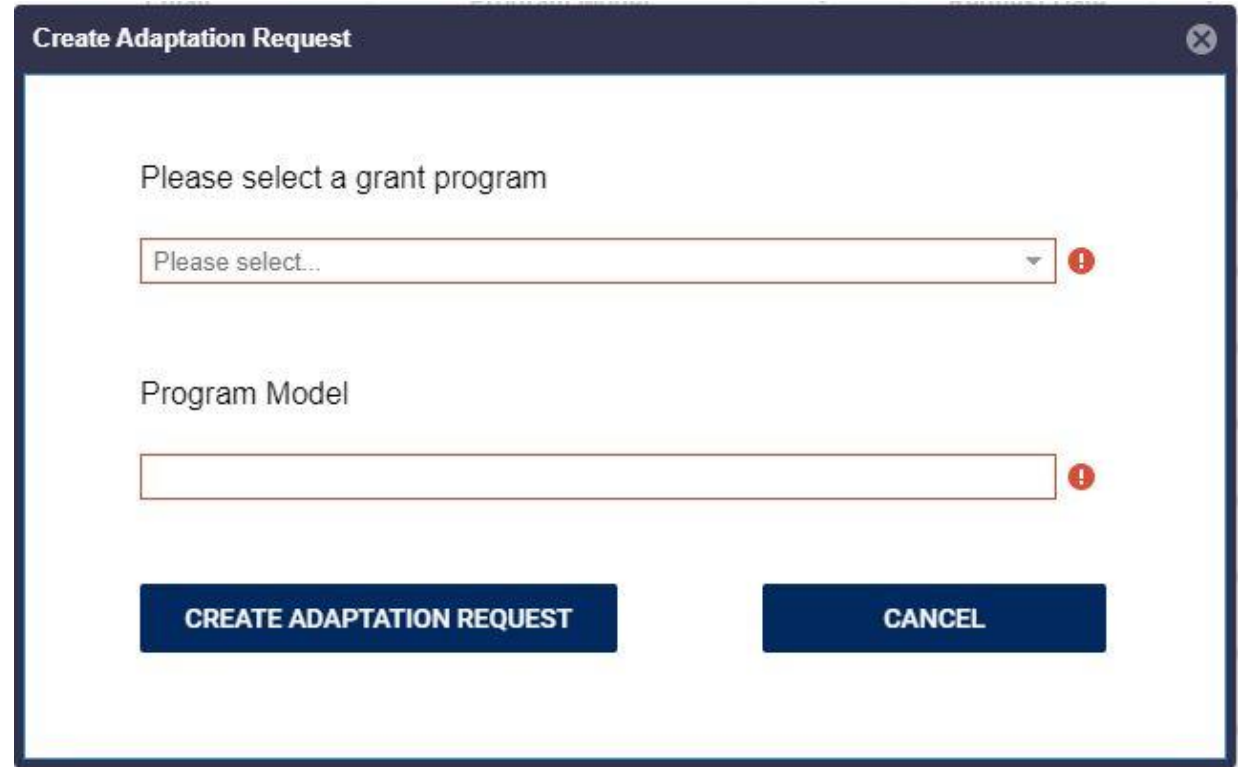

The screenshot displays the OPA MAX web application interface. On the left is a navigation sidebar with the OPA logo and the text 'OFFICE OF POPULATION AFFAIRS'. The sidebar contains several menu items: 'About OPA MAX', 'Contact Information', 'Profile Information', 'Progress Report Review', 'Continuation Application Technical Review', and 'Adaptation Request'. The 'Adaptation Request' item is highlighted with a black border. Below it is a button labeled '+ Add New Adaptation Request'. The main content area at the top has filters for 'All Grantees' (selected) and 'My Grantees', a 'Filter By Grant Program' dropdown set to 'All', a 'Filter by Program Model' button with an 'x' icon, and status filters for 'All' (selected), 'Minor', and 'Major'. Below the filters, a blue header bar indicates 'Adaptation Requests: 51 record(s)'. Underneath is a table with columns: 'Grantee Organization', 'Requestor', 'Email', 'Program Model', and 'Major / Minor'. The table body is currently empty.

MAX Adaptation Request Form Instructions (Minor) cont.

- Once you click “+ Add New Adaptation Request” then following pop-up will appear.
- Please select your grantee name from the top of the dropdown menu. After this, type in the name of the Program Model you wish to adapt.
- Click “Create Adaptation Request” which will bring you to a blank Adaptation Request Form.

The screenshot shows a dark-themed pop-up window titled "Create Adaptation Request" with a close button in the top right corner. Inside the window, there are two input fields. The first is a dropdown menu labeled "Please select a grant program" with the text "Please select..." and a red exclamation mark icon to its right. The second is a text input field labeled "Program Model" with a red exclamation mark icon to its right. At the bottom of the window, there are two dark blue buttons: "CREATE ADAPTATION REQUEST" on the left and "CANCEL" on the right.

- The blank adaptation request form will pre-populate the Program Name, Grantee Name, Grant Program, Grant #, Grant year, Period Covered by Report, and OPA Reviewer.

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

MAX Adaptation Request Form Instructions (Minor) cont.

- Fill in the following fields

Requestor:	<input type="text"/>
Email:	<input type="text"/>
Program Model:	<input type="text"/>
Per discussion with your Project Officer, is this adaptation minor or major?	<input type="radio"/> Minor <input type="radio"/> Major
Date of Adaptation Request Submission:	<input type="text"/> 
Expected date of adaptation implementation:	<input type="text"/> 

MAX Adaptation Request Form Instructions (Minor) cont.

- Please indicate the type of adaptation that is being requested

Type of adaptation:

☐ Setting

☐ Population

☐ Dosage

☐ Facilitator

☐ Method of Implementation

☐ Revising Program Materials

☐ Other (Please describe)

☐ Addition or removal of an activity/lesson/service/etc.

if other, please
describe:

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

MAX Adaptation Request Form Instructions (Minor) cont.

- Please fill out the following fields when requesting minor adaptations. Ensure enough details are provided to present clear and accurate depiction of minor adaptation.

Thoroughly explain the adaptation you are proposing to implement:

Provide a justification for the adaptation. Why is it needed?:

Save

Submit for Record

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

MAX Adaptation Request Form Instructions (Major)

- Filling out the Adaptation Request Form for **major** adaptations begins similarly to that of minor adaptations although there are additional steps to complete the adaptation request form for major adaptations

OFFICE OF THE
ASSISTANT SECRETARY FOR HEALTH

MAX Adaptation Request Form Instructions (Major) cont.

For major adaptation requests:

1. Grantees are expected to confer with the program developer and/or publisher regarding the proposed adaptation. Please provide whatever feedback was given by the developer.

2. What are the core components of the program model and how will they be affected by the adaptation?

3. How will adaptation be implemented?

4. What is the expected impact of the adaptation?

5. How will you track and monitor the adaptation to determine if it is having the desired effect? Impacts of adaptation should be reported during semi-annual reports. OPA expects that any approved adaptation that does not achieve the desired impact should be discussed with the Project Officer for possible modification or elimination.

UPDATED

📅 25 Aug 2020

Welcome to – *or back to* – the OPA Teen Pregnancy Prevention (TPP) Family! We are your OPA Replication Team: Jaclyn, Jacquie, Liz, Minju, Richmond, Roslyn, and Tammy.

Now you know us, but do you know each other? Here's a way to get to know your fellow grantees just a bit more. Check out the following [spreadsheet](#) to learn what other grantees are implementing, where, and with whom. You can also find this document under the Technical Assistance Tab>Planning Period section. We hope you find this chart helpful. Also, if any of the information about your program has changed please contact your Project Officer.

Upcoming Submissions:

- **September 30, 2020** *For grantees that selected an effective program in their application that did not meet the FOA criteria* - Submit the final selection of effective program(s) with supporting citation and abstract summary. **Submit on MAX.gov>Implementation Tab>Effective Program Documentation section.**
- **End of Planning Period or December 30, 2020 (whichever comes first)** Copies of all final formal agreements (e.g. MOUs,

Systems Thinking Workshop Series

September 29 - November 12, 2020

Welcome to the OPA Systems Thinking Workshop Series MAX page. This site is organized into three sections: pre-work (due September 25), informational blocks for each week's lesson, and supplemental resources. Each week's section includes dates and call-in information for demonstrations and office hours, as well as links to homework. Grantees will upload each week's homework here in advance of the following week's demonstration.

- **Update:** Demonstrations will be held on Tuesdays; Office Hours will be held on Thursdays
- [Agenda](#)

Pre-work

Prior to September 25, please:

- Watch OPA's brief [Introduction to Systems Thinking](#)
- Finalize and upload your [Systems Thinking Team Plan](#)

▶ [Click to upload pre-work](#)

Week 1: Interview

SYSTEMS THINKING

TPP20 Tier 1 Workshop Series

WHAT

TPP20 Tier 1 grantees are invited to participate in an intensive systems thinking workshop series. Through this series, grantees will cultivate their own systems expertise, revisit assumptions made in their grant applications, and pinpoint those leverage points most
