

Introduction to Adaptations eLearning

Reflection Worksheet

This worksheet captures all reflection questions included in the *Introduction to Adaptations eLearning*. During and/or after participating in the eLearning, use the questions below to help you reflect on your program's approach to adaptations.

Lesson 3: Commonly used terms

What implementation and adaptation terms are commonly used by your program?

Lesson 5: Minor and major adaptations

Has your organization made any minor adaptations to the program model(s) you are implementing? If so, what are they?

Has your organization made any major adaptations to the program model(s) you are implementing? If so, what are they?

Lesson 6: Steps to adapt a program

Has the program developer for your program provided any guidance on adaptations? If so, what?

(This guidance may be provided as part of your implementation package, available on the developer's website, or provided on an individual basis.)

Lesson 9: Deep dive into step 3: Request OPA approval

Who is responsible for requesting OPA approval of adaptations for your program?

Lesson 10: Deep dive into step 5: Monitor approved adaptations

What fidelity monitoring tools does your organization use?

If you are implementing approved adaptations, how have the tools been updated to reflect these changes?

Lesson 11: Monitor unplanned adaptations

How does your program document unplanned adaptations and use the information for continuous quality improvement?
